Strengthen Your Brand

Enhance standard envelopes into eye-catching branded mail pieces with five customised logos / slogans.

Fast Accurate Postage Re-Crediting

Replenish the Mailstart+ 24-hours a day with simple one-touch refills quick, secure and hassle-free. This is made available when users are connected to a secure LAN connection.

Keep An Eye On Postage Costs

INVIEW™, the web-based, easy to use, online reporting feature allows you to:

- Have visibility of your postage expenditure by class and format
- Extract information and present simple graphical analysis
- Monitor spending to identify waste e.g. overuse of first class or large letter format

Better Connected

The new Mailstart+ can now connect to a secure server via LAN, PC or Telephone connection. This enables faster communication and allows services such as postal tariff changes, software updates and slogans to be downloaded quickly and effortlessly to the machine.

Easy To Use

All controls are fully integrated on one clear control panel with user friendly instructions. This will guide the operator through each stage of processing your mail. This will make using the machine very easy and useful to everyone.

Correct Postage-Every Letter, Every Time

The Mailstart+ incorporates a 2.5kg integrated weighing platform, freeing up desk space. This will guarantee that each item that is franked has the correct postage value.

Lower Your Mail Costs

MAILMARK - This brand new technology offers cost-saving benefits and extra discounts compared to current franked mail with access to the maximum discounts available using a franking machine.

Monitor Postal Spend

Control postage costs for your business by using the account reporting feature which gives you up to 10 named departmental or client 'PIN' protected accounts.
